

## JP GX5050 Sublimation System – 8.5" High-Speed, Full Color Printing

The **JP GX5050 Sublimation System** proves that high quality and high speed are not mutually exclusive. We combine Ricoh's lightning fast **Aficio GX5050N** printer and **SubliJet-R** "gel" sublimation inks for a low-maintenance, reliable printer for use with limited transfer sizes.

### GX5050 Sublimation System - \$809.00

The JP GX5050 bundled package includes the following:

- Ricoh Aficio GX5050N GelSprinter printer
- Four SubliJet-R ink carts (60ml CMY/68ml K)
- JP Dye Sub Paper – 100 sheets / 8.5" x 11"
- Full color management instructions & ICC profiles
- Johnson Plastics' **Sublimation Manual w/ CD**

The fastest dye sub system on the market, the **JP GX5050 Sublimation System** is perfect for on demand jobs! Quickly print transfers on paper up to **8.5" x 14" (Legal)** for a variety of smaller products with this efficient, four-color printer. Use this system for producing identity products like name badges and desk plates, small awards and plaques, up to 8 x 10 photo products, mugs and much more!

**RICOH**  
GX5050N printer

featuring **SubliJet-R** inks

## GX5050 System Features & Highlights

Johnson Plastics' **GX5050 Sublimation System** delivers legal size color transfers at laser-like speeds with bulk-size 60 ml cartridges (68ml black) which eliminate the need for a bulky, external ink delivery system.

- Included network interface card for office networking
- Standard 64 MB internal memory
- Print speeds up to 30 ppm b&w *and* color
- "Gel" inks require much less maintenance
